CHINESE SCIENCE BULLETIN
(KEXUE TONGBAO)

SUBJECT INDEX TO VOLUME 35 (1990)

Progress in Studies of Chromosomal Scaffold ..... *HAO Shui* (705)

β-Agkistrodotoxin: A Presynaptic Neurotoxin From Venom of the Pit Viper (*Agkistrodon blomhoffii brevicaudus* Stejneger) ..... *XU Ke* (1145)

The Largest Telescope in China and the Far East—2.16 Metre Reflector ..... *JIANG Shi-yang* (1937)

Mathematics

A Necessary and Sufficient Condition for the Oscillation of Neutral Equations ..... *WANG Zhi-cheng* (1)

Resolvable Twofold Triple Systems Without Repeated Triples ..... *SHEN Hao* (89)

On the Complete Convergence for Randomly Selected Sequences ..... *SHAO Qi-man* (93)

The Problem of Consistency for Systems of Linear Equations and Inequalities ..... *WEI Zi-luan* (177)

Information Conditions for a Class of Limit Theorems for the Sequence of m-Valued Random Variables ..... *LIU Wen* (182)

A Fixed Point Theorem for Multivalued Nonexpansive Mappings in Banach Spaces of Normal Structure ..... *XIE Ji-pei* (265)

An Optimal Algorithm for Matrix Multiplication ..... *JIANG Chang-jun* et al. (268)

A Distortion Theorem for Biholomorphic Mappings in C^2 ..... *GONG Sheng* et al. (353)

The Growth and 1/4-Theorems for Starlike Mappings in C^n ..... *Carl H. FitzGerald* et al. (357)

The Uniqueness of Limit Cycle of Quadratic System $(II)_{m=0}$ ..... *ZHANG Ping-guang* (360)

q-Pseudoconvex Domain in r-Complete Manifold ..... *CHEN Zhi-hua* et al. (366)

Existentially Closed Structures and E-Companions ..... *SHEN En-shao* (441)

A Proof of Local Existence of the Problem for Supersonic Flow Past a Three-dimensional Wing ..... *CHEN Shu-xing* (445)

Extensions of Simple Modules for the Group $Sp(4, K)(II)$ ..... *YE Jia-chen* (450)

The Minimal Characteristic Basis of a Differential Polynomial Ideal ..... *GAO Xiao-shan* (455)

Quadratic Systems Possessing a Weak Focus of Order Two and a Singular Point With a Zero Characteristic Root ..... *ZHANG Ping-guang* et al. (459)

The Integrable Systems Associated With G. J. Equation and Its Gauge Equivalent Yang Equation ..... *LI Yi-shen* (529)

A Note on Eigenvalues ..... *CHEN Jie-cheng* et al. (536)

A Fundamental Solution of the Operator $\mathscr{L}_\alpha$ on the Heisenberg Group $\mathbb{H}^n$ ..... *AN You-shan* et al. (617)

Mediumlogic and Woodruff's Three-valued Logic ..... *LI Xiang* et al. (622)

Oscillation of Second Order Neutral Differential Equations ..... *ZHANG Bing-gen* (712)

A Remark on Conditional Expectations ..... *YAN Jia-an* (719)

Integrability of Abstract CR-Structures ..... *CHEN Zhi-hua* et al. (793)

On a Geometric Inequality ..... *ZENG Zhen-bing* (798)

The Construction of Large Sets of Disjoint Mendelsohn Triple Systems of Order 2^n+2 ..... *KANG Qing-de* (801)
Admissibility for Linear Estimates of Multivariate Regression Coefficients ..... *XIE Min-yu* (881)
The Level Characterization of the Interior Operator in Induced Spaces ..... *YI Yun* (884)
Some Properties of the Relative Entropy Density of Arbitrary Information Source ..... *LIU Wen* (888)
Comparison Theorem for Strong Solution of Two-Parameter Poisson Type Stochastic Differential Equation ..... *CHEN Xiong* (893)
The Necessary and Sufficient Conditions of Partial Stability for Linear Dynamical Systems ..... *LIAO Xiao-xin* et al. (899)
On the Global Existence and Boundedness of Solutions of Differential Equations in the Region of $V>0$ ..... *SHI Jing-hua* (969)
On Computational Complexity for the Multiplication of Generalized Hilbert Matrices With Vectors and Solution of Certain Generalized Hilbert Linear Systems ..... *LU Hao* (974)
A Consistent Result of the System $Z+$ the Replacement Axiom Schema of Σ_n-Formulas ..... *ZHAO Xi-shun* (979)
Clifford's Theorems for Strongly Group-graded Rings ..... *ZHOU Bo-rong* (981)
Study on Non-distinct Self-regression Forecast Model ..... *CAO Bing-yuan* (1057)
Sheaf Structures of N-Compact Sets and Fuzzy Wallace Theorem ..... *XU Xiao-quan* (1063)
L-Fuzzy Perfect Mappings ..... *XU Xiao-quan* (1067)
Study of Non-existence of Limit Cycle Around a Weak Focus of Order Two or Three for Quadratic Systems ..... *ZHANG Ping-guang* (1156)
Uniformities on Completely Distributive Lattices ..... *LIANG Ji-hua* (1162)
On Asymptotics Related to the Statistical Curvatures in Nonlinear Regression ..... *WEI Bo-cheng* (1165)
Distortion Theorem for Biholomorphic Mappings in Transitive Domains (I) ..... *GONG Sheng* et al. (1169)
On Banach Support of an Ergodic and Quasi-invariant Measure ..... *YANG Ya-li* (1233)
Analytic and Topological Characterizations of Completely Distributive Law ..... *LIU Ying-ming* et al. (1237)
Formulas of Values of Singular Point and the Integrability Conditions for a Class of Cubic System, $M(3)\geqslant 7$ ..... *LIU Yi-rong* (1241)
The "General" Integrable Lie Algebra $gl(V)_{\text{fin}}$ and the Group Associated to It ..... *SU Yu-cai* (1321)
Infinite-dimensional Widths in the Spaces of Function (I) ..... *LI Chun* (1326)
Cobordism Classes of Fiber Bundles ..... *YANG Hua-jian* (1409)
Functional Differential Equations and Topological Dynamics ..... *ZHANG Shu-nian* (1414)
On the Decomposition Problem of Stability for Volterra Integrodifferential Equations ..... *WANG Mu-qiu* et al. (1497)
On an Open Question of S. Singh and R. Kumar ..... *DONG Xue-dong* (1503)
A Generalization of Hilbert Nullstellensatz ..... *WANG Shi-qiang* (1505)
Reductionism of Dimension in Studying Absolute Stability ..... *WU Yong-xian* et al. (1585)
$K_2(R, I)$ of Unit 1-Stable Ring ..... *YOU Hong* (1590)
Contractions on π_k Spaces ..... *YAN Shao-zhong* et al. (1673)
Manifolds With Involution Whose Fixed Point Set F Has the Property $W(F)=1$ ..... *WU Zhen-de* (1676)
Balanced Incomplete Block Design and the Construction of Geodetic Blocks ..... *MAO Jing-zhong* (1761)
A Guess About Positive Approximation ..... *LI Shao-kuan* (1763)
Homomorphisms of 2-D de Bruijn-Good Graphs ..... *LIU Mu-lan* (1765)

Axiom of Choice in the Model *C* ····· *ZHAO Xi-shun* (1849)
A New Involutive System of Polynomials and Its Classical Integrable Systems ····· *MA Wen-xiu* (1853)
A Completely Integrable Neumann System in Liouville Sense ····· *XU Tai-xi* et al. (1859)
On the Fourth Power Mean of Dirichlet L-Functions ····· *ZHANG Wen-peng* (1940)
Positive Definite Hermitian Forms Over Imaginary Quadratic Fields ····· *QIN Hou-rong* (1946)
Maluta's Question on Sequence Coefficients in Banach Spaces ····· *XU Hong-kun* (2025)
Embedding of *k*-Orientable Manifolds ····· *GUO Jing-mei* (2028)
On an Optimal Algorithm for Matrix Multiplication ····· *CHEN Dao-qi* et al. (2032)

Physics

A New Way for Improvement of Wilson's Incompatible Element and Multivariate Incompatible Element ····· *WANG Jia-lin* (5)
Hawking Radiation of Charged Fermi Particles in Six Dimensional Spherically Symmetric Spacetime ····· *XU Dian-yan* (9)
Madey Theorem and Gain Formula in Electron Cyclotron Maser ····· *ZHANG Shi-chang* (14)
Low-Frequency Scatter Field and RCS of Conductors ····· *GUO Xiao-jie* (187)
A CEMS Study of 9Cr18 Stainless Steel ····· *ZHANG Qiang* et al. (192)
The Preparation of 110 K Superconductor in Bi-Sr-Ca-Cu-O System ····· *CHE Guang-can* et al. (273)
A Monte Carlo Renormalization Group Study of Ising Model on 2-Dimensional Random Triangle Lattice ····· *HUANG Wu-qun* et al. (278)
A Study of He Trapping in the HR-1 Stainless Steel Under Helium Irradiation ····· *LI Yu-pu* et al. (283)
Superconducting Thin Films Deposited by Excimer Laser ····· *AN Cheng-wu* et al. (371)
The Correlation Between Microstructure and J_c in High T_c Superconductor ····· *SONG Xiang-yun* et al. (375)
Equation of State and Phase Transition of AlH_3 Under High Pressure ····· *BAO Zhong-xing* et al. (379)
A Study on the Defect in Magnetic Layer of Video Tapes ····· *LUO He-lie* et al. (464)
Mössbauer Spectroscopic Study of the Ferroelectric-Ferromagnet Mixed Ceramics ····· *ZHENG Yu-fang* et al. (468)
Magnetic Island Widths in Tokamaks ····· *ZHENG Shao-bai* et al. (473)
Analysis of Ternary Sequential Circuits Based on Ternary Flip-Flops ····· *CHEN Xie-xiong* et al. (541)
Standing Wave of Finite Amplitude in a Circular Basin With Uneven Bottom ····· *LI Jia-chun* et al. (546)
Preparation of Nanocrystalline Powder of Metals ····· *ZHU Yong* et al. (551)
Evaluation and Prediction of Electrochromic Materials With Pattern Recognition ····· *YU Shan-qing* (627)
Isotope Exchange Reaction in Uranous-Uranyl-Sulphuric Acid System II
——Catalytic Effect of Fe (II) on the Exchange Reaction ····· *LING Da-ren* et al. (632)

Electric Properties of InSb Crystal Growing Under Micro- and Super-Gravity Conditions ····· *ZHANG Fang-qing* et al. (637)
Thermodynamic Characteristic Function ····· *XU Qi-ming* (723)
Landau-Type Free Energy of Particles Undergoing a Dilatant Transformation in Ceramics ····· *RU Chong-qing* et al. (728)
A Study of Low-temperature UV Hg Sensitized Photochemical Vapor Deposition SiO_2 Films ····· *JING Jun-hai* et al. (732)
Determination of HCOO-Cu(100) Structure by MSC Method of NEXAFS ····· *TANG Jing-chang* et al. (806)
Temperature-Dependent ^{11}B NMR Studies of 0.5 $Na_2O \cdot B_2O_3$ Glass ····· *XU Shu* et al. (811)
Phase Relation and Crystal Structure in Nd_2O_3-BaO-CuO System ····· *FU Su-jia* et al. (816)
A Quantum Effect of Domain Wall Movement in a Ferromagnet at Low Temperatures ····· *SU Gang* (904)
Accurate Determination of Neutron Fluence in Fission Track Dating ····· *ZHAO Yun-long* (983)
Vapour Phase Method for Diamond Thin Film Growth ····· *JIN Zeng-sun* et al. (988)
Magnetic Properties of Amorphous CoFeNiNbSiB Sputtering Films ····· *LUAN Kai-zheng* et al. (992)
Twin Domain and Domain Boundary in $RBa_2Cu_3O_{7-x}$ Superconducting Material ····· *SONG Xiang-yun* et al. (1072)
High-resolution Photothermal Ionization Spectroscopy on Ultra-pure Semiconductors ····· *YU Zhi-yi* et al. (1076)
Coupling Effect Between Wall Oscillation and Stripe Domain FMR in Garnet Films ····· *BI Si-yun* et al. (1081)
A New Exact Solution of the Stokes Equation ····· *ZENG Yu* et al. (1172)
On the Near-Tip Fields for a Crack Dynamically Growing Along a Curved Path in an Elastic Solid ····· *JIN Zhi-he* (1177)
Investigation on the Angular Dependence of FMR Linewidth in Ca-rich CaGe: YIG Film ····· *HAN Zhi-quan* et al. (1182)
On the Intensity of Laue Diffraction ····· *ZHANG Jian-zhong* (1246)
Molecular Orbital Theoretical Calculations of Electron-promotion and Charge Change in Collision Systems Ni^+-Fe, Ni^+-Ni, Ni^+-Zn and Fe^+-Fe ····· *WANG De-min* et al. (1252)
Layered Body Mode in Ferromagnetic Resonance Spectra on Reduced Ca-rich CaGe: YIG Films ····· *HAN Zhi-quan* et al. (1257)
Integral of Transformation From 3-D into 2-D Problems ····· *WANG Lin-sheng* (1331)
Production of Highly Concentrated ^{13}C by Two-Stage Selective IRMPD ····· *MA Pei-hua* et al. (1337)
Effects of Austenite Deformation and Cooling Rate on $\gamma \rightarrow \alpha$ Transformation Temperature AR_3 ····· *LI Jian* et al. (1342)
The Structural Phase Transition Near 210 K of Bi-based Superconductors ····· *HE Yu-sheng* et al. (1419)
Further Probe of Cosmic-Ray Double Leaky Box Model ····· *ZHANG Li* et al. (1424)
Theoretical Method for Calculating Electron Correlation Energy Between Two Hydrogen Molecules ····· *ZHOU Mao-tang* (1430)
Kinetics Studies of Laser Photolysis of KI Aqueous Solution ····· *YAO Si-de* et al. (1509)
The Coherent States of Harmonic Oscillator With Complex Frequency ····· *JIANG Xun-dong* (1512)
Serious Defect of Difference Algorithm in Experiment of Gravitational Radiation ····· *GUAN Tong-ren* (1517)
H_α Emission and Target Atom Excitations in Collisions of H_m^+ (m=1, 2, 3) With Li and Na at 20—150 keV ····· *PAN Guang-yan* et al. (1596)
The Elastic-Plastic Bending and Wrinkling of Thin Circular Plates ····· *ZHANG Liang-chi* et al. (1602)
Crystallization and Phase Transition of $3Li_2O \cdot 2B_2O_3$ Glass ····· *ZHAO Shu-qing* et al. (1608)

Drag Force on Bodies in a Rarefied Plasma Flow ····· *CHEN Xi* et al. (1680)
Approximation and Its Optimal Error Estimate of Displacement of Two-Phase Incompressible Flow by Mixed Finite Element and a Modified Method of Characteristics ····· *YANG Dan-ping* (1686)
Pyroelectric Property of TGS-PVDF Composite Material ····· *WANG Min* et al. (1690)
Influence of Oxygen on Microwave Absorption in Bi-Pb-Sr-Ca-Cu-O ····· *HOU Bi-hui* et al. (1695)
On Applications of Symmetric Positive Systems to Elasticity ····· *WANG Min-hua* (1769)
Ultrafine Al_2O_3 Particles Produced by Laser Heating Method ····· *LI Zong-quan* et al. (1774)
The Theoretical Constraints on the Higgs-Boson Mass and the Weinberg Angle ····· *LOU Sen-yue* (1777)
Dynamic Lie Algebra Structure of Quantal System and Berry's Phase Factor ····· *SUN Chang-pu* et al. (1784)
Hadronic Momentum-Multiplicity Correlation in Quantum Field Theory at Short Distance ····· *ZHAO Shu-song* et al. (1862)
The Capacity and Hausdorff Dimension of Cubic Map ····· *XU Wen-tao* et al. (1869)
Sound Speed in Symmetric Nuclear Matter With SGII Type Interactions ····· *ZHENG Guo-tong* et al. (1874)
^{63}Cu Nuclear Quadrupole Resonance (NQR) Study in the High T_c Oxide Superconductor $YBa_2Cu_3O_{7-\delta}$ ····· *ZHENG Li-ai* et al. (1878)
The Influence of Target Temperature on He Trapping in Type HR-1 Stainless Steel ····· *LI Yu-pu* et al. (1949)
Mössbauer Firing Study of Clays From the Famous Sites of Ancient Chinese Kilns ····· *GAO Zheng-yao* et al. (1954)
Experimental Research on Nonlinear Landau Damping of Ion Acoustic Waves ····· *WANG Wen-qing* (2035)
The Anisotropy Measurement of the Ultrafine γ-Fe_2O_3 Powder ····· *LUO He-lie* et al. (2040)
Generation of Nonclassical States of Light Field by Ortho-Symmetrization ····· *PENG Shi-an* (2044)

Chemistry

ESR Study on Active Radicals Produced by Microwave Discharge of Fatty Ketones ····· *WANG Wen-ding* et al. (19)
ESR Study on Generation of N-Alkyl-*p*-phenylenediamine Radical Cations by Ultrasound ····· *ZHANG Fa* et al. (25)
Study on Anticancer Drugs
——New Spin-labeled Derivatives of Podophyllotoxin ····· *CHEN Yao-zu* et al. (99)
Studies of XPS Satellite Peaks and XPS Valence Band Spectra on Rare Earth Phenanthroline Dodecaborate Complexes ····· *WANG Dian-xun* et al. (103)
Electronic Structure of $ReCo_5$ Type Intermetallic Compound (I) ····· *WANG Chong-yu* et al. (197)
Application of Titatrane to the Increase of the Yield of Water Soluble Epoxyalcohols in Sharpless Asymmetric Epoxidation ····· *LIU Han-xing* et al. (203)
Investigation of the Potential Field Around F^+-Center in LiF Crystal by *ab initio* Method ····· *LIU Jing-jiang* et al. (287)
A Calibrated Measurement of the Atomic Weight of Carbon ····· *ZHANG Qing-lian* et al. (290)
The Preparation and Crystal Structure of Hg_3(Thiamine)Cl_8 ····· *JIN Zhong-sheng* et al. (383)
Mechanism of C—H Insertion of Bicyclobutanylidene ····· *WANG Bing-ze* et al. (388)

The Valence State of Copper in High T_c $YBa_2Cu_3O_x$ Superconductor Studied by Fluorescence Spectroscopy ..... *SONG Zeng-fu* et al. (479)
The Synthesis of Cross-linked Polystyrene Resins Grafted by L-Proline Through Hydrophilic Spacers ..... *MA Jian-biao* et al. (554)
The Crystal Structure of Oxynitidine ..... *CHEN Yuan-zhu* et al. (558)
Enrichment of Trace of Gold by Means of Ion Floatation ..... *LIANG Shu-quan* et al. (562)
Synthesis of Chiral Chelating Resins Supported by Cross-linked Poly N-(Vinylbenzyl) Ethylenediamine ..... *MA Jian-biao* et al. (642)
Study on the Growth and Properties of ATCC Crystal ..... *ZHANG Nan* et al. (646)
Preparation of Polyvinylamine Resin and Its Application in Resolution of DL-Amino Acid ..... *YUAN Zhi* et al. (736)
Study on C. D. Spectra of Substituted-C-phenyl-D-glucopyranosides ..... *YUE Bao-zhen* et al. (740)
Study on the Synthesis of Some New Biflavonoids (VI)
——The Catalytic Hydrogenation of 3,3″-Biflavones ..... *WANG Qian* et al. (744)
Study on the Ternary Complex of Rare Earth Gadolinium (III) With Human Serum Albumin and Citrate ..... *YANG Pin* et al. (821)
Determination of ^{15}N Abundance in Ammonium by Using a New Kind of Mass Spectrometric Ionization Method ..... *HUANG Qing-wen* et al. (825)
Voltammetric Study of the Complexation of Rare Earths With Crown Ethers in Acetone Media ..... *GUAN Fu-yu* et al. (830)
Theoretical Analysis for Configurations of Stereoregular Isotactic Polypropylene Chains ..... *XU Jian-min* et al. (909)
Phase Transformation of Hot-pressed Silicon Nitride at Lower Temperatures ..... *YUAN Li-jian* et al. (914)
The Stereostructural Investigation of 3(R), 8-Dimethyl-2(R), 5-Bis(1-Methyl-Ethyl)-6-OXO-2, 3, 6, 7, 9, 10-Hexahydro-1H-3A, 7-Ethanoazulene-10-Carbonitrile by 2-D NMR Spectroscopy ..... *HAN Xiu-wen* (997)
The Electronic Structure and UV Spectra of Footballene and Its Isomers ..... *FENG Ji-kang* et al. (1003)
The Mechanism of Transformation From Paratungstate A to Paratungstate B ..... *JIANG An-ren* et al. (1006)
Theoretical Studies of Spectrum and Magnetism on Coordination Compounds $CoX_3L_n^+$ ..... *XIE Jun-kai* et al. (1086)
Synthesis of a New Type of CH_3CN-coordinated Lanthanide Compounds $Ln(CH_3CN)_9(AlCl_4)_3CH_3CN$ ..... *HU Jing-yu* et al. (1090)
On the Exchange Potential in X_α Calculations of Rare Earth Compounds ..... *LI Le-min* et al. (1093)
The Relativistic Pseudopotential MCSCF Calculations for Some Low-lying States of $TiCl_2$ ..... *MA Zhong-xin* et al. (1186)
Phase Relationships in the System Mg-Al-O-N ..... *SUN Wei-ying* et al. (1189)
A New Explanation of Dewetting Phenomena ..... *E. Tronel-Peyroz* et al. (1261)
A Study on Physical and Surface Properties of the Iron-Chromium High Temperature Shift Catalyst With the Additive Aluminum Hydroxide ..... *ZHANG Hui-liang* et al. (1266)
Methods for the Synthesis of Organic Phosphorus Compounds With Anti-radiation Activity ..... *TONG Zeng-shou* (1271)
Investigations of Anodic Oxidation Processes of Iron Surface With Ellipsometric Spectroscopy ..... *HUANG Zong-qing* et al. (1348)

Studies on the Formation and Relaxation of Banded Structure of Liquid Crystalline Copolyester B-ET ····· *DONG Yan-ming* (1351)
EXAFS Studies on Ni-V Catalyst Structure ····· *WEI Shi-qiang* et al. (1435)
Colour Systems of Mixed Polynuclear Complexes of Lanthanum-2, 7-bisazochromotropic Acid Dyes-Zinc-O-Phenanthroline ····· *SHEN Han-xi* et al. (1440)
Synthesis and Crystal Structure of $[Zn^{+}\{H_2N(CH_2)_4CH(NH_2)COONa\}_2SO_4^{-}] \cdot H_2O$ ····· *ZHU Zhi-guo* et al. (1521)
Determination of the Constituents of Ginseng Sesquiterpenes ····· *ZHANG Hui-xiang* et al. (1526)
Investigation on the Supported Catalyst Complex by Photoacoustic Spectroscopy and Thermal Analysis ····· *JIANG Man* et al. (1613)
Study on Photophysical Process in Ethyl Benzoate ····· *BAI Feng-lian* et al. (1617)
A Preliminary Quantum Chemical Analysis of the Nature of Quasi-aromaticity of the Puckered $[Mo_3S_3]$ Ring in Certain $[Mo_3S_4]^{4+}$ Clusters ····· *CHEN Zhi-da* et al. (1698)
Effect of Molecular Weight of PMMA on β Phase Crystallization in Highly Oriented PVF_2 Films ····· *CHEN Ye* et al. (1705)
Synthesis and Characterization of the Coordination Compounds of Rare Earth Nitrates With Alanine ····· *GAO Sheng-li* et al. (1790)
Ab initio Unrestricted-Hartree-Fock Studies of Magnetic Polymers ····· *LI Jia-bo* et al. (1796)
Quantitative Studies of Solute Boundary Layers on Crystal-Liquid Interface by Holographic Phase-Contrast Interferometric Microphotography ····· *YU Xi-ling* et al. (1801)
Mechanism of Tetrahydrofuran Ring-opening Polymerization Initiated by Boron Trifluoride ····· *ZHANG A-fang* et al. (1881)
The Optical Properties of Pheophorbide A ····· *MENG Ji-wu* et al. (1886)
Solution of the Radial Equation for the Relative Motion of a Diatomic Molecule ····· *FANG Jian-yun* (1891)
Electrocatalysis of Polypyrrole-Methylene Blue Film Modified Electrode for Direct Redox Reaction of Cytochrome c ····· *SONG Shi-hua* et al. (1961)
Ionic Polarization and Thermal Stability Law of Carbonates ····· *DAI Zhang-wen* (1965)
A New Channel Feasible for Popularizing the Application of *ab initio* to Large-size Molecules —— Direct SCF Approach (DSCF) ····· *GU Xian-zhang* et al. (1970)
Heat Capacity of ⬡/γ-Al_2O_3 Adsorption System ····· *ZHOU Li-xing* et al. (2049)
Preparation and Characterization of $K_n[Z(H_2O)CrW_{11}O_{39}] \cdot X\,H_2O$ ····· *WU Qing-yin* et al. (2052)
Investigation on a Class of Wavefunctions With Symplectic Symmetry ····· *LIU Cheng-bu* et al. (2057)

Astronomy

The Model of the Solar Convective Zone ····· *XIONG Da-run* (28)
Wyman's Solution in the Higher Dimensional Space-Time ····· *SHEN You-gen* (108)
An Estimation of the Ranging Accuracy of the SLR System at Changchun Artificial Satellite Station ····· *BAI Bao-lin* et al. (297)
The Determination of the Moon's Free Librations by LLR Method ····· *LI Jin-ling* et al. (650)
Results of Radio Observation of Quasar 3C147 ····· *ZHANG Fu-jun* et al. (1446)
Is the Newly Discovered Sub-millisecond Pulsar Within SN1987A an Old Pulsar? ····· *LU Tan* et al. (1529)
Interior Solutions in Static Spherical Symmetric Higher-dimensional Space-Time ····· *SHEN You-gen* (1533)

Earth Sciences

Preliminary Study on Chlorine-36 Dating of Halite in Salt Lakes From Qaidam Basin ..... *HUANG Qi* (32)

A Study of Sediment Delivery From a Small Catchment in the Loess Plateau by the ^{137}Cs Method ... *ZHANG Xin-bao* et al. (37)

Mössbauer Spectra of Grandidierite ..... *QIU Zhao-ming* et al. (43)

Recent Development of Discrete Ordinate Method in Computation of Radiative Transfer in Anisotropically Scattering Atmosphere ..... *WANG Hong-qi* et al. (112)

On the Stratigraphical and Geographical Distribution of the Kepingophyllids During the Maping Age in China ..... *XU Hang-qiu* (116)

Three-dimensional Filtering Using Hilbert Transform ..... *WANG Tian-xi* (123)

Calculating Formula of Time-dependent Temperature Regime of Frozen Soil ..... *WANG Jin-feng* (128)

Sm-Nd Isochronous Age of Fuchuan Ophiolite Suite in Shexian County, Anhui Province and Its Geological Significance ..... *ZHOU Xin-men* et al. (208)

Long-term Trend and Seasonal Cycle of Atmospheric Methane ..... *WANG Ming-xing* et al. (213)

The Newest Testimony of Magmatic Origin of Spilite ..... *XIA Lin-qi* et al. (217)

The Endothermic Model of Percolation Zone of a Glacier and Finding the Analysis Solution in Moving Coordinate ..... *CAI Bao-lin* et al. (223)

Variation of Mean Annual Precipitation in the Recent Hundred Years in East China ..... *ZHANG Ming-li* (300)

Large-scale Strike Slip Fault: the Major Structure of Intracontinental Deformation After Collision ..... *ZHONG Da-lai* et al. (304)

The First Discovery of the Superlattice Orthoclase ..... *XU Hui-fang* et al. (310)

Heat Flow Profile From Yadong to Qaidam Running Through the Tibetan Plateau ..... *SHEN Xian-jie* et al. (314)

A New Type of Distributary Channel Deposits in Coal-bearing Strata of Nayong Area, Guizhou Province ..... *MA Wei-jun* (393)

Chronological Research of Sand Bars Along the South Coast of China ..... *LI Ping-ri* (397)

The Climatic Characteristics of the Subtropical High in West Pacific From Satellite Observations ..... *JIANG Shang-cheng* et al. (403)

Formation Age and Process of Heilusol in the Longdong Loess Plateau ..... *ZHANG Wei-xiang* et al. (407)

An Observation of the γ-Rays From 100 keV to 830 keV in Atmosphere at Sea Level During Annular Eclipse of the Sun ..... *BIAN Zu-he* et al. (413)

The Observation Study of 3—5-Year Cycle in Northern Hemisphere 500 hPa Height Field ..... *LIN Xue-chun* (415)

Comprehensive Model for Estimating Crop Yield Based on Crop Spectrum and Thermal Infrared Information ..... *ZHANG Ren-hua* (482)

The Crystal Structure of Zabuyelite ..... *LIN Yue-ying* et al. (489)

Freezing Point of Load-bearing Moist Soil and Its Determination ..... *LIU Zong-chao* et al. (493)

A Study on Plant Opals and Its Application in the Explanation of the Palaeoenvironment of Qingdao in the Past 3000 Years ..... *LU Hou-yuan* et al. (498)

^{14}C Chronology of Beizhuangcun Sedimentation Sequence Since 30,000 Years B. P. ..... *ZHOU Wei-jian* et al. (567)

Crystal Data and Assignment of Powder X-Ray Diffraction Pattern of 107 K Single Superconducting Phase in Pb-Bi-Sr-Ca-Cu-O System ····· *SHI Ni-cheng* et al. (573)
Mineralogical Taxonomic Parameters of Ordinary Chondrites ····· *WANG Dao-de* et al. (577)
A Simulation Study on the Vortex Induced Tearing Mode Instability at the Magnetopause ——The Coalescence of Vortex and Magnetic Island ····· *PU Zu-yin* et al. (655)
The Discovery of Yoredale Cyclic Deposits of Late Paleozoic in North China and Its Significance ····· *WANG Shou-song* et al. (659)
The Features of Environmental Evolution in the Area of Fildes Peninsula, King George Island, Antarctic ····· *ZHAO Jun-lin* (663)
Thirty-seven Climatic Cydes in the Last 2.5 Ma····· *DING Zhong-li* et al. (667)
Provenances of Low Grade Metamorphic and Sedimentary Rocks From Southern Anhui Province: Evidence of Nd Isotope Compositions ····· *CHEN Jiang-feng* et al. (747)
Geochronologic Study for the Metamorphic Belt Along the Coast of Fujian Province and Its Tectonic Significance ····· *HUANG Hui* et al. (751)
Nonlinear Stability of Triad-Wave Interaction ····· *REN Shu-zhan* (755)
A New Probe of Application of Silicon Isotopic $\delta\ ^{30}Si$ in Siliceous Rocks to Sedimentary Facies Analysis ····· *SONG Tian-rui* et al. (761)
Fundamental Characteristics of the Anastomosing Fluvial System on Complex Deltaic Plain ····· *PENG Su-ping* (835)
Discovery of Imogolite in Luochuan Loess Profile ····· *ZHAO Hui-min* et al. (840)
Formation Mechanism of Meanders With Hyperconcentration ····· *XU Jiong-xin* (845)
Finding of High Quality Paper-coating Kaolin Ore Seams in Neogene and Quaternary System Formations of Coastal Districts, Guangdong Province and Its Significance ····· *ZHOU Guo-ping* et al. (919)
Dating of the Basement Beneath Eolianite on Shidao Island With Reference to ESR and U-Series Ages ····· *YE Yu-guang* et al. (923)
Middle and Late Carboniferous Chenier Deposits in Ordos Region ····· *CHEN Chang-ming* et al. (1011)
Further Study on the Structure of the Crust and Upper Mantle in the Jiangsu-Zhejiang-Anhui Area, Eastern China ····· *CHEN Sheng-zao* (1014)
A Study of the Fission Track Age of U-Containing Minerals in Granite Fracture Zone in Suzhou ····· *ZHENG Jia-xin* et al. (1019)
Temperature Distribution of Chongce Ice Cap, West Kunlun Mts.····· *ZHOU Tao* et al. (1024)
Discovery of *Autunia conferta* (Sternberg) Kerp on Northern Margin of Tarim Plate ····· *SHEN Guang-long* et al. (1097)
The Lower Silurian Contourite and Its Geological Implication in Central Anhui Province····· *JIANG Zai-xing* et al. (1101)
Correlation of Late Quaternary Environments Between South China Coast and North China Loess ··· *LI Ping-ri* et al. (1105)
Sedimentation of Anoxic Environments Under Transgression and Upwelling Process in Early Permian in Lower Yangtze Area····· *LÜ Bing-quan* et al. (1193)
Messinian Event in Xisha Region ····· *ZHANG Ming-shu* et al. (1199)
A Discovery of Late Cenozoic Fossil Plants in Kunlun Mountains····· *ZHANG Qing-song* et al. (1204)
On the Characteristics of Surface Reflectance and Net Radiation Over the Tibetan Plateau in Summer ····· *ZHU Fu-kang* et al. (1277)
A Study of Lichenometry and Its Application to Some Geological Events in Shaanxi, China ····· *XIE Xin-sheng* et al. (1281)
Some New Observations on the Geology of Western Yunnan ····· *FANG Zongjie* et al. (1286)

Reflectance and Infrared Transmission Spectroscopic Studies of the Qingzhen Enstatite Chondrite (EH3) ……*LI Zhao-hui* et al. (1291)
Velocity, Attenuation and Magnitude of Lg Waves in the Continent of China Not Including Xinjiang and Xizang (Tibet) ……*GE Huan-cheng* et al. (1355)
Calculation of Reservoir Temperature Using a SiO_2 Mixing Model, Zhangzhou Geothermal Field, SE China ……*PANG Zhong-he* et al. (1360)
Terrestrial Heat Flow in the 5th Geological Transection of China……*WU Qian-fan* et al. (1364)
Sr, Nd, Ce, O Isotopes and Trace Element Geochemistry of Cenozoic Volcanic Rocks, Kangsulake, Yutian County, Xinjiang ……*LIU Cong-qiang* et al. (1450)
The Discovery of Microtektite in Loess and Its Significance ……*YUAN Bao-yin* et al. (1455)
A Mesoscale Numerical Simulation of "Aug. 1987" Heavy Rainfall in Jinan Area …*ZHU Cui-juan* et al. (1460)
A Preliminary Study on Chemical Composition and TL Characteristics of Tektites From Leizhou Peninsula and Hainan Island ……*ZHENG Hong-han* et al. (1465)
Mössbauer Study of Magnetism and Content of Krasnozem Magnetic Minerals……*YAO De-zhong* et al. (1539)
Study of Washan Tourmalite in Ximeng, Yunnan Province ……*LÜ Bo-xi* et al. (1542)
Preliminary Research on Water Exchange at the Pearl River Estuaries……*LIN Hong-ying* et al. (1547)
A Crystallographic Study on the Domain Structure of $P2_1ca$ Orthopyroxene ……*XU Hong-wu* et al. (1552)
Persistent Anomalies of the Northern Hemisphere Wintertime Stratospheric Temperature Advection …
……*LI Zi-qiang* et al. (1555)
Application of Basin Modelling Technology in Depression W ……*LIU Li-bin* et al. (1621)
Study on the Eolian Dust Flux Over the Loess Plateau: an Example……*AN Zhi-sheng* et al. (1627)
Polarity Inversion Frequency and Distribution ……*ZHU Ri-xiang* et al. (1632)
A Preliminary Study on the Surface Thermal Regime Over the Great Wall Station in Antarctica……
……*ZHOU Xiu-ji* et al. (1638)
Study of Observation for CH_4 Concentration in Troposphere ……*WANG Mu-lin* et al. (1709)
AMS ^{14}C Dating and Sedimentary Environments of Core L2011 in the West of Mid-Pacific……
……*ZHENG Shu-hui* et al. (1714)
Determination of the Thermal Water Circulation Depth Using Data From Geothermal Investigation …
——Case History in Zhangzhou Geothermal Field, SE China……*WANG Ji-yang* et al. (1719)
The Construction and Preliminary Test of the Explicit Complete Square Conservative Difference Schemes ……*WANG Bin* et al. (1724)
A New Digital Radiometer for Measurement of Water Vapor and Cloud Liquid in the Troposphere …
……*ZHAO Cong-long* et al. (1807)
Analyses of Intergrowth of Ductile and Brittle Deformations ……*SHI Huo-sheng* et al. (1812)
Areal Distribution of Wandering Braided and Stable Braided River Channel Patterns in China ……
……*XU Jiong-xin* (1816)
A Possible Mineralization Model of Granite-Type Uranium Deposit ……*HU Rui-zhong* (1822)
Global Smooth Solutions of Two-dimensional Euler Equations ……*MU Mu* (1895)
Hydrogen Isotope Fractionation Between Ilvaite and Water ……*QIAN Ya-qian* et al. (1901)
A New Method for Determining Paleomagnetic Field Intensity ……*ZHU Ri-xiang* et al. (1906)
Variation of Vertical Profile for $^{210}Po_{ex}$ at the Top of Sediment in Hongfeng Lake ……
……*WAN Guo-jiang* et al. (1910)
Discovery of Gigantic Early Cambrian Fossil Zone and Disintegration of Inner Mongolia Earth Axis
……*WANG Dong-fang* et al. (1975)
Earth Rotation and Disastrous Earthquakes in Xinjiang ……*ZHENG Da-wei* et al. (1980)
$^{40}Ar/^{39}Ar$ Chronology of the Boxian (LL4) Chondrite……*CHEN Jiang-feng* et al. (1984)

Infrared Spectra Effect of α-Decay Damage in Zircon Structure ……*YANG Xue-ming* et al. (1988)
New Scheme of Building Long-term Prediction Model and Its Application ……*WEI Feng-ying* et al. (2062)
Experimental Investigations of Hydrous $AlPO_4$ Gel at High Pressures and High Temperatures ……
……*WANG Zhen-jie* et al. (2067)
The Structure of Amarillite ……*LI Jia-ju* et al. (2073)
Oxygen Isotopic Record and Its Paleoclimatic Implications of Benthonic Foraminifera of East China Sea Core Shim-I in Mid-Eocene, Pliocene and Early-Pleistocene ……*WANG Da-rui* et al. (2076)

Life Sciences

Ultrasound Investigation of Human Blood Coagulation ……*WANG Jin* et al. (48)
Transformation of Foreign Genes Into the Monocotyledonous Plant *Caladium bicolor* Mediated by Constructed Ti-Plasmid of *Agrobacterium tumefaciens* ……*LI Bao-jian* et al. (52)
Direct Measurement of Active Oxygen Free Radical Following Reperfusion of Ischemic Rabbit Myocardium With ESR Technique ……*ZHAO Bao-lu* et al. (56)
Transfer and Expression of Human Clotting Factor IX Gene in Chinese Hamster Ovary Cells ……
……*DAI Yi-fan* et al. (60)
Further Study on Characterization of 615 Mouse Leukemic Autoinhibitory Activity ……
……*WU Ke-fu* et al. (64)
Experimental Verification on the Presence of Two Electronic Levels in Proteins ……
……*ZHANG Jing-ru* et al. (134)
Studies on the Relationship Between the MO Reactivity Indices and Reversible Anticholinesterase Activity of Cuixingning ……*CHEN Bang-hua* et al. (139)
Preliminary Study of Platelet Aggregation Mechanism Using Mathematical Model ……
……*SHEN Cheng-wu* et al. (145)
Investigation of MHC-Class III(Complotype) of Han Nationality of Chinese in the Hubei Area ……
……*YAO Zhu* et al. (149)
Elimination of Conditioning Movement Component in Wave EML and Difference Between Waves V and C ……*WEI Jing-han* et al. (227)
Study on Multi-Point Site-specific Mutagenesis
——Double-Point Site-specific Mutagenesis for Modifying α-Human Atrial Natriuretic Peptide Gene ……*YANG Di* et al. (232)
Studies on Tannin Constituents of Root From *Potentilla viscosa* ……*ZHANG Ben* et al. (239)
Discussion on Experimental Impact Injury to the Spinal Cord With Allen's Method ……
……*HUA Zhu-xin* et al. (244)
Correction of DNA Repair Gene Deficiency in Mammalian Cells by Human HeLa S3 DNA Transfection ……*ZHANG Yang-pei* et al. (250)
Factor Analysis Method of Mixed Pixel and Its Application to Estimation of Winter Wheat Sown in Large Area ……*XU Xi-ru* et al. (317)
Time-resolved Fluorescence Spectroscopy of Hematoporphyrin Derivative Laser No. 3 ……
……*LIU Wen-qing* et al. (321)
The Valence of Extractable Cobalt in Soil ……*CAI Zu-cong* et al. (326)
Accumulation of Transition Metals in Fe-Mn Concretions From Selected Soils in North Huai Region, Jiangsu and Its Environmental-Geochemical Significance ……*PAN Gen-xing* (329)

Circadian Rhythm of the Reactivity of Human Peripheral Leukocytes to Glucocorticoid Hormone ····· ····· *LIU Zhi-min* et al. (334)
A New Method for the Formation of 6-Oxo-3α, 5-Cyclosteroids ····· *ZHANG Hong-bin* et al. (420)
Effects of Isonicotinyl Hydrazine on the Level of Nitrate Reductase Activity in *Chlamydomonas reinhardii* ····· *ZHENG Chao-feng* et al. (423)
High Dividing Frequency of Protoplasts and Regeneration of Plants in Indica Rice ····· ····· *SUN Bao-lin* et al. (427)
Effect of T-2 Toxin on Wheat Leaf Protoplasts ····· *CHANG Nai-tao* et al. (431)
Effect of PEG Priming on Protein Synthesis of Cold-sensitive Soybean Seed ····· ····· *LIANG Zheng* et al. (504)
Membrane Stabilization Action of Metallothionein on Rat Hepatic Lysosomes····· ····· *TANG Chao-shu* et al. (509)
Distribution of FMRFamide in Nervous System of Amphioxus ——A Study of the Immunohistochemistry ····· *FANG Yong-qiang* (580)
Relationship Between Production of Insulin Mediators and Activities of Inducing Hormones ····· ····· *YUE Yun* et al. (583)
Study on ESR Dating of Carbonate Sediments ····· ····· *XING Ru-lian* et al. (589)
Study on Shrinkage of Thylakoids Related to H^+-Uptake ····· ····· *DING Huan-gen* et al. (672)
Proton Gradients Involved in Light-Activation of Reduced Proton-ATPase in Thylakoids····· ····· *YING Wen-long* et al. (677)
Spinal Angiotensin II Accelerates the Recovery of Arterial Blood Pressure After Hemorrhagic Shock in Rat ····· *FAN Lei* et al. (683)
Sex Pheromone Biosynthesis in Asian Cornborer *Ostrinia furnacalis* ——Sex Pheromone Biosynthetic Precursors ····· *ZHAO Cheng-hua* et al. (767)
Effects of Ooplasm Cytoskeleton on Migration and Development of Sperm-Nuclei in Mouse Eggs ····· *CHEN Da-yuan* et al. (851)
The Fibrillization Mechanism of Silk-Fibroin in Middle Silk Gland ····· *LI Guang-xian* et al. (857)
A Monoclonal Antibody Inhibiting the Growth of Tumor Cells *in vitro* ····· *ZHU Xiao-yun* et al. (862)
Inhibitory Effects of Abscisic Acid on Epibrassinolide-induced Senescence of Detached Cotyledons in Cucumber Seedlings ····· *ZHAO Yuju* et al. (928)
Laser Raman Spectroscopic Study of Photosensitive Damage of Anticancer Drug YHPD to DNA ····· *XU Yi-ming* et al. (932)
HIP_2: a Monoclonal Antibody With Stimulatory Effect on Human Hematopoiesis *in vitro* ····· ····· *GUO Xiang-yang* et al. (938)
Zur Anwendung Des Katastrophenmodells in Der Erforschung Von Bekämpfungsstrategien Des Ökosystems Der Weizen-Blattlaus····· *ZHAO Hui-yan* et al. (944)
Genetic and DLM Morphological Studies on Four Flightless Mutants in *Drosophila melanogaster* ····· ····· *WANG De-nan* et al. (1029)
Directional Sensitivity of Auditory Ω Neuron in Bushcricket *Gampsocleis gratiosa* ···*SHEN Jun-xian* et al. (1035)
The Influence of Extracts of Soybean Calli and Root Cells on the VA Mycorrhizal Fungal Spore Germination and Germ Tube Elongation ····· *PENG Sheng-bin* et al. (1041)
Some Novel Triterpenoid Saponins From *Oxytropis* Plants ····· *SUN Rong-qi* et al. (1110)
Molecular Cloning of Highly Repetitive DNA Sequences From Giant Panda, *Ailuropoda melanoleuca* ··· ····· *WU Zheng-an* et al. (1115)

Cloning and Analysis of 2.5 kb Fragment Upstream of c-Ha-ras Gene Derived From Human Gastric Cancer Cell Line ····· *XU Ning-zhi* et al. (1121)
cDNA Cloning of Gene Encoding Coat Protein of CMV Infecting Tobacco Plants in China ····· *HU Tian-hua* et al. (1209)
Infrared Spectrum Observation on the Effect of TMF Upon Bilirubin Gallstone ··· *ZENG Fan-qing* et al. (1296)
Studies on 2D NMR Spectra of Suberogorgin and Its Stereochemistry ····· *CHEN Bang-hua* et al. (1300)
Influence of 5-Hydroxytryptamine Microinjected Into Preoptic Area on Electroactivities of Pain Response Neurons in Parafascicular Nucleus of Thalamus in Rat ····· *ZHANG Li-juan* et al. (1369)
Studies on Preliminary Crystallography of Arg^{B31}-Human Insulin ····· *WAN Zhu-li* et al. (1374)
In vitro Growth and Production of "Vegetative Spores" of VA Mycorrhizal Fungus —— *Glomus sinensis* ····· *PENG Sheng-bin* et al. (1378)
Effect of Endogenous Leu-Enkephalin on Acupuncture Immune Response ····· *WANG Jian-he* et al. (1383)
Sex Pheromone of Sugarcane Tip Borer *Scirpophaga excerpalis* Walker····· *WU De-ming* et al. (1469)
Connection Between Spinal Cord Dorsal Horn Neurons and the Solitary Tract Nucleus of Rat ——A Physiological Study ····· *MENG Zhuo* et al. (1474)
A Human Apolipoprotein AI-like Protein Secreted by Yeast ····· *SHEN Tong-jian* et al. (1480)
Protoplast Culture and Plant Regeneration of Foxtail Millet····· *DONG Jin-jiang* et al. (1560)

Nonparametric Multiple Regression Under a Fixed Design ····· *HU Shu-he* (1225)
On the Equation $ax^m-by^n=2$ ····· *CAO Zhen-fu* (1227)
Preliminary Results of the Prediction of a Strong Earthquake by Means of the Residuals of Time and Latitudes ····· *HU Hui* et al. (1228)
Study on Lactate Dehydrase in the Early Development of Goat Embryos ····· *YANG Zeng-ming* et al. (1230)
Inhibition of Tumor Necrosis Factor Can Also Be Produced in Leukemia Patient *in vivo* ····· *FAN Kai* et al. (1231)
Appoximation Algorithms for the Initial Allocating of Real-Time Tasks ····· *YAN Yong* (1232)
Decidability of Finite Forcing Companion ····· *SHEN En-shao* (1315)
Ergodic Theorems for Reaction Diffusion Processes ····· *CHEN Mu-fa* (1316)
Locally Triangulable Spaces and Topological Entropy ····· *ZHOU Zuo-ling* (1317)
The Distribution of Eigenvalues of Generalized Weak Diagonal Dominance Matrix ····· *YANG Yi-min* (1318)
Physiological Changes of Photoreceptor of Bush Cricket Compound Eyes as a Function of Time and Adaptation State ····· *WU Wei-guo* et al. (1319)

Strongly Equivalent Classes of Functions on Finite Sets ……*C. Y. Chao* et al. (1401)
Periodic Solutions of a Class of Nonlinear Functional Differential Equations ……*ZHAO Xiao-qiang* (1402)
Lax Representation for the Higher-Order Heisenberg Equation ……*XU Tai-xi* et al. (1404)
Stereoselective Synthesis of an Intensely Sweet Compound Hernandulcin ……*ZHENG Guo-chi* et al. (1406)
Relationship Between Calcium and Callus Formation ……*YU Fang* et al. (1407)
Groups Whose Proper Quotients Are Finite-by-Nilpotent ……*ZHANG Zhi-rang* (1489)
A Necessary and Sufficient Condition of $(BCP)_\theta$ Weighted Shifts ……*LÜ Fang* (1490)
Abelian 3-DCI Groups of Even Order……*FANG Xin-gui* (1491)
Total Chromatic Number of Graphs of High Degree ……*YE Hong-bo* et al. (1492)
On Erdös's Problem of Bandwidth of Graph Adding Edge …… *WANG Jian-fang* et al. (1492)
Existence of Quadratic Forms as *V*-Function of a Stable System……*HUANG Li-min* (1493)
Direct Somatic Embryogenesis and Plant Regeneration in Protoplast Culture of Wheat (*Triticum aestivum* L.) ……*GUO Guang-qin* et al. (1495)
Greedy Structure for Linear Objective Functions ……*FANG Zu-yao* (1579)
Existence of Periodic Solution of a Class of First Order Differential Difference Equations ……
……*CHEN Yong-shao* (1580)
Equivalent Differential-algebraic Equations of Hamiltonian System and Its Application ……*XIE Zhi-yun* (1581)
Phospholipid Study in the Early Development of Goat Embryos ……*YANG Zeng-ming* et al. (1583)
Topological Degree of Critical Points of 2-Dimension Mountain-Pass Type Produced by 2-Dimension Link ……*HU Chuan-ping* (1665)
A Proof of an Assertion of Blokh and Its Generalization ……*LAN Yuan-qi* (1666)
Somatic Cell Nuclear Transplantation in Mud Carp ……*LIN Li-tang* et al. (1667)
Cluster Analysis of the Species of *Ustilago* in China ……*ZHENG Chuan-lin* et al. (1668)
Finite Element Methods for the Nuclear Waste-Disposal Contamination in Porous Media ……
……*YUAN Yi-rang* (1668)
The Finite Thermodynamic Criteria for Selecting Parameters of Refrigeration and Pumping Heat Cycles Between Heat Reservoirs……*CHEN Wen-zhen* et al. (1670)
Davenport's Theorem in Short Intervals……*ZHAN Tao* (1749)
Multiple Points of Fractional Brownian Motion and Hausdorff Dimension ……*XIAO Yi-min* (1749)
Bäcklund Transformations for the Isospectral and Non-Isospectral *KdV* Hierarchies …*TIAN Chou* et al. (1751)
On the Compute of One Class Average of L-Functions …… *ZHANG Wen-peng* (1752)
Study on the Calmodulin-Binding Peptides……*YAN Hu-sheng* et al. (1753)
NMR of Some Complexes With Paramagnetic Ion ……*LIN Qiao-yuan* et al. (1754)
Performance of *ab initio* Calculations of Large-Size Molecules on PC Computers …*GU Xian-zhang* et al. (1756)
Breeding of Wheat Translocation Lines and Giemsa-C Banding Appraisal ……*ZHANG Yue-xue* et al. (1757)
Generalized Noether Theorem of High-Order Nonholonomic Nonconservative Dynamical Systems……
……*ZHANG Jie-fang* (1758)
On the Simplex of Maximum Width ……*MAO Qi-ji* (1840)
On the Edge-Disjoint 1-Factors in the Power of Connected Graphs ……*ZHANG Jian-xun* (1841)
Distribution-Free Consistency of Kernel Regression Estimate ……*HU Shu-he* (1841)
Springer Conjecture on $N=17$ ……*WANG Guan-min* (1843)
The Variational Principle in the Velocity Space for Relativistic Mechanics ……*SUN You-lie* (1845)
A. N. Prior's Modal Intuitionistic Calculus Mipc Has 13 Modalities ……*GAO Heng-shan* (1930)
Relation Between Arboricities of a Graph and Its Complement Graph ……*ZHANG Zhong-fu* et al. (1930)
A Characterization of Some Finite Simple Groups ……*SHI Wu-jie* et al. (1931)

On Maximal Submanifolds in Pseudo-Riemannian Manifolds ····· *SHEN Yi-bing* (1932)
Photooxidation of Hypocrellin A
——The Influence of pH on the Sensitized Photooxidation of Hypocrellin A in Aqueous Solvents
····· *AN Jing-yi* et al. (1933)
Equation of State for Polymers ····· *SUN Zhen-hua* et al. (1935)
Extension of the Theorems of C̆. V. Stanojević and V. B. Stanojević ····· *SHENG Shu-yun* (2014)
The Cyclicity of Multiple Hopf Bifurcation in the Planar Cubic Differential System: $M(3) \geqslant 7$ ·····
····· *LI Ji-bin* et al. (2016)
The Growth and $\frac{1}{4}$-Theorem for Starlike Mapping in B^p ····· *YU Qi-huang* et al. (2017)
The Periodic Solutions of Riccati Equation With Periodic Coefficients ····· *ZHAO Huai-zhong* (2018)
Total Synthesis of Cembrene-C ····· *MAO Jian-min* et al. (2020)
Quantum Mechanical Study on Nonlinear Second-Order Optical Susceptibilities ····· *FENG Ji-kang* et al. (2022)
Synthesis of Polyurethane Containing D-Lactose Residues in the Main Chain ····· *HUANG Zu-xiu* et al. (2023)
